

Confined Space Entry (Basic Course)

Delivery Method	:	Classroom (English)
Fee	:	Available on Request
Location	:	PetroTalent, Pune, INDIA
Seats	:	15
Duration	:	2 days

Course Information

Objective:

Many workplaces contain spaces that are considered "confined" because their configurations hinder the activities of any employees who must enter, work in, and exit them. In addition, there are many instances where employees who work in confined spaces face increased risk of exposure to serious hazards. In some cases, confinement itself poses entrapment hazards. In other cases, confined space work keeps employees closer to hazards, such as asphyxiating atmospheres or toxic gases.

Training Outline
